

Wednesday Challenge Form

Group Members: Raul, Jaden, Elizabeth, Malik, Evan

Problem Statement: Make the closest thing you Can to a 90 degree angle with 3 straws

Approach: We first thought about how we Could do it. We got a the three straws and put Two together it a right angle then put another Straw attaching the two pieces

Solution: We made a right angle then attached The third straw to the other two

Lessons Learned: try to be as precise as you can
